EXHIBIT 9

Diane Haddock has been my dear, trusted friend and colleague and the Associate Judge I have entrusted with cases in the 233rd District Court for 20 years. So, Tom Vick, in his capacity as the President of the State Bar of Texas, calls me last night and informs me that by an e-mail, Gerald Haddock has announced his wife's resignation as the Associate Judge of the 233rd. I have not heard one word from Diane, but Gerald's communication to Tom seems to speak volumes, yes?

Its time to stop the BS politics and get everyone back to who we really are.

Judge Harris, I have no idea what your telephone call with Tom Vick was about, it appears from your Facebook post that he called you to tell you that I emailed him that Diane had resigned. I did not do that and could not do that. Diane started receiving screen shots of your post in the night. As you know, she is not on Facebook so could not respond. I never said to Tom or anyone

would never put you, the court or the county is such a precarious position as to up and leave without a plan. My goodness, what is happening? I don't speak for her and she does not speak for me, that you have known for our 25 year friendship. You can and always will be able to trust Diane. She speaks her own mind and that you have also known and appreciated. However, when she speaks she does so verbally and not on social media. She would never have resigned through me to Tom Vick to you via a phone call. That just would not ever happen. I'm so sorry that you were upset by Toms call but I wish you had just picked up the phone and called Diane like you have so many times before. That is generally the method that you two have communicated in the past
